

Did you know that in 2008 NCBF and ALPS Foundation Services embarked on a survey to determine the cumulative impact bar foundations and other legal foundations have within legal communities and society in general on a local, state and national level? And that as an NCBF member you have exclusive access to the report results and analysis?

The report generated in 2008 provided valuable information for Bar Foundations nationwide with an in-depth analysis of data related to the revenue, distributions, value, and impact of bar foundations and other legal foundations nationwide. This information caused bar foundations to create an even larger impact on their communities.

Top three findings from the 2007 survey:

1. \$210 million was contributed toward law-related causes.
2. 50% of respondents identified their primary mission as ensuring access to justice for community members.
3. 70% of foundation funding (\$140 million) supported access to justice efforts.

A lot has happened for legal foundations since 2008 and it's time to update the survey.

The State of Bar Foundations. Today.

No matter how big or small your foundation, **your input is essential.** If you haven't completed the survey yet, please [click here](#) to access the survey.

The new cumulative impact survey explores the same questions as before plus new ones. The information generated from respondents will:

- Enhance your NCBF membership value;
- Provide you with a network of experts;
- Offer current publications that inform best practices;
- Help develop NCBF future programming ; and
- Aid in advancing NCBF's mission

In partnership with  **ALPS**
Foundation Services

Thank you in advance for your participation. Your feedback creates impact on our communities.

* The survey can also be accessed from the [NCBF home page](#).
